

# Tweezers Soldering Station

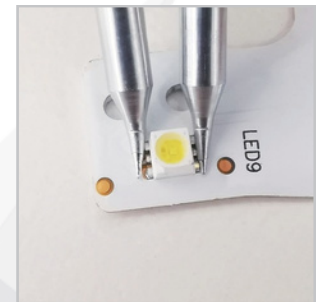

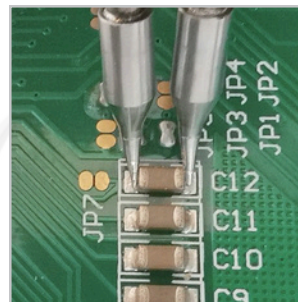

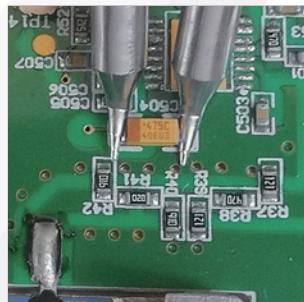

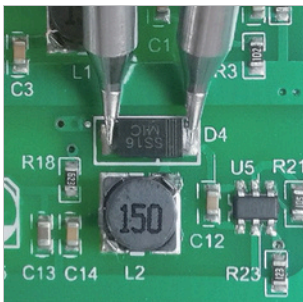

QUICK TS6

### ▼ Features

- ESD protection design, delicate and compact.
- LCD display, digital temperature calibration.
- Dual heater for simultaneous heating, independent temperature control, and rapid temperature rising.
- Direct heating of chip component pins, no thermal diffusion to peripheral components.
- For safe and fast desoldering of SMD chip resistors, capacitors, and SOP components.

### ▼ Application Scenarios

### ▼ Product Parameters

Model	TS6
Power Consumption	60W
Temperature Range	100~450°C
Temperature Stability	±2°C
Handle Model	TSS60
Soldering Tip Model	TSS06
Tip to Ground Potential	<2mV
Tip to Ground Resistance	<2Ω
Dimensions	137*168*114mm
Weight	About 2.9KG
